

WEB APP USING PHP

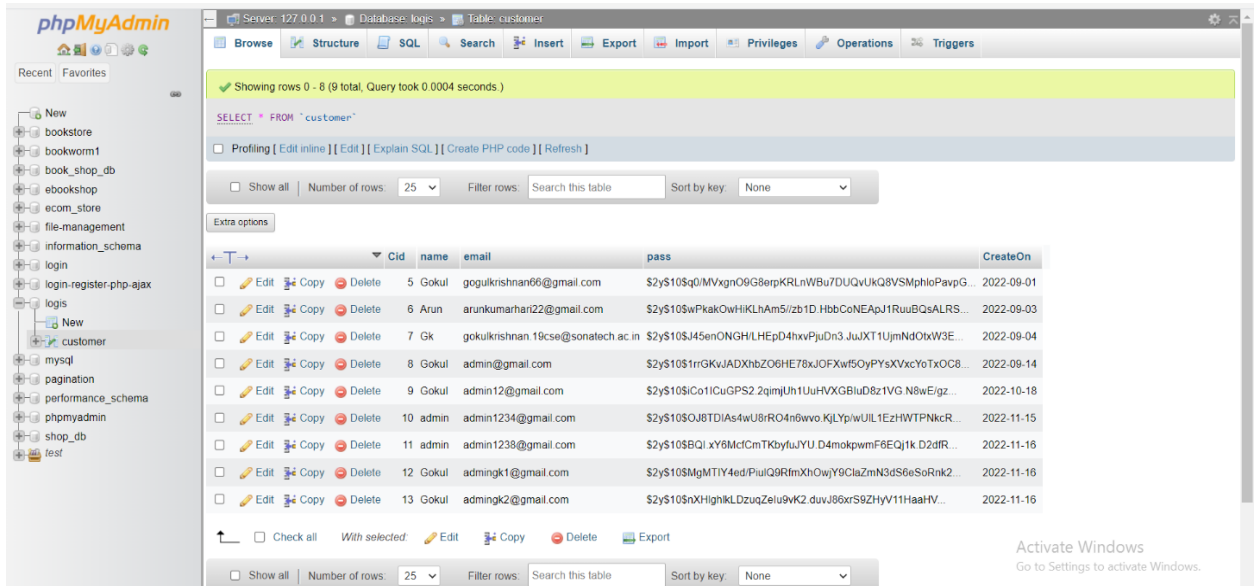

1. Login Page

2. Registration Screen

3. Created Db for authentication Purpose

The screenshot displays the phpMyAdmin interface for a MySQL database. The left sidebar shows a tree of databases, with 'logis' selected. The main panel shows the 'customer' table structure and data. The table has 9 rows of data, each with a unique 'Cid', a 'name', an 'email', a hashed 'pass', and a 'CreateOn' timestamp.

	Cid	name	email	pass	CreateOn
